

Artist Statement

Work	The Masterpiece
Programme	ArTech inclusive creativity studio
Year	2025

Intent

The Masterpiece fuses traditional sculpting with digital rendering. A single form is captured from seven angles and shown across seven screens, so the viewer walks around a sculpture that exists only as light.

Inclusion

The work was made in a studio that supports neurodivergent artists. Proceeds from fractional sales go back into the programme.

Demo document: sample content bundled with the web app and shown when the vault's on-chain documents cannot be loaded. It is not an official record.
